

April 26, 2021

To all the wonderful clients of Mendon Animal Clinic,

After a long period of contemplation, I have decided to retire from Mendon Animal Clinic. I do so with mixed emotions. While I am very excited to start a new chapter in my life, I am also very sad to say goodbye. My last day will be May 29th.

It has been an honor and pleasure to care for your four-legged family members over the past 12 years. I will miss the relationships I have formed with all my clients, patients and co-workers, but am thankful for the many memories I can take with me.

I will be leaving you in the very capable and compassionate hands of Drs. Podles, Bolduc, and Park. Most of you are very familiar with Dr. Podles who has been with us for over 7 years. She is a very talented, caring and hardworking veterinarian, and she is a vital part of our team. Dr. Bolduc joined us last summer, and many of you have "met" her the "COVID way" over the phone. She enjoys building bonds with her patients and their families, and is very much looking forward to face-to-face conversations with all of you. She is a very skilled and energetic veterinarian, and is a wonderful addition to our team. Dr. Park will be joining the team in July. Dr. Park has many years of experience in both medicine and surgery, and she is looking forward to working in a smaller community practice where she can develop meaningful connections with clients and their furry family members. We are very lucky to have these accomplished veterinarians at our practice.

As we have grown over the years, we have added several dedicated, smart, and indispensable support staff. I may be biased, but I think we have an awesome team at Mendon. Everyone works very well together to give you and your family the best care and service possible.

Thank you all for the opportunity to care for your beloved companions and family members. I will miss everyone.

Sincerely yours,

A handwritten signature in black ink that reads "Michelle". The signature is written in a cursive, flowing style.
